

**Manufacturer of Customized
Metal Turned Components**

||| About Us

Manufacturer of Customized Metal Turned Components

Our MD Mr. Abhay Khetani having vast experience in metal machining industry of over 25 years have started his own venture with a vision to supply maximum variety of metal components from one window for customer ease.

The manufacturing process is based on customer requirement carried out by team of highly dedicated workforce. The workflow in company is quality driven and with the team of self-motivated workers and staff members. All working towards continuous improvement and to achieve excellence in the manufacturing of products.

◎ 25+ Years of Experience ◎ Modern & Innovative Infrastructure ◎ Skilled & Dedicated Team Members.

Modern & Innovative Infrastructure

Our manufacturing unit is equipped with latest machines and technology to produce zero-defect and high performance metal components. The sophisticated production facilities enable us to execute orders of various sizes and specifications. The infrastructural facilities are also equipped with sophisticated packaging equipment and machinery to ensure quality packaging that ensures safety of products during transit and delivery.

List of Machines

- ◎ PLC Machines
- ◎ Multi Spindle Machines
- ◎ Turning Machines
- ◎ Threading Machines
- ◎ Cutting / Drilling Machines
- ◎ Die Box

We serves a wide range of industries, we have adapted our services to suit a range of different industries. Some of the industries that we serve are mentioned below.

Agriculture

Automotive

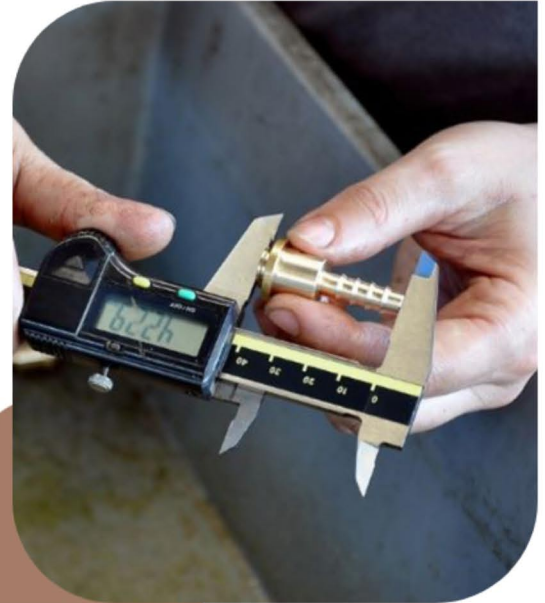

Electrical

Quality

We Focus On Developing Quality Metal Components

Quality is the prime aim to attain of our company in our every business endeavor. We are an ISO 9001:2015 certified company. We are having team of quality inspectors having sound technical knowledge of parts that are manufactured in our premises. Our target is to provide zero defects products to client which is remarkable in industry. To meet the global demand we take care at every stage right from raw material purchase to finished goods.

Our quality assurance team is trained and well experienced. To achieve the maximum standard our quality control team continuously monitors the products and user requirement right from the production stage up to the final dispatch. Every employee of the company is committed to the pursuit of excellence with continuous

||| Brass Neutral & Earth Bars

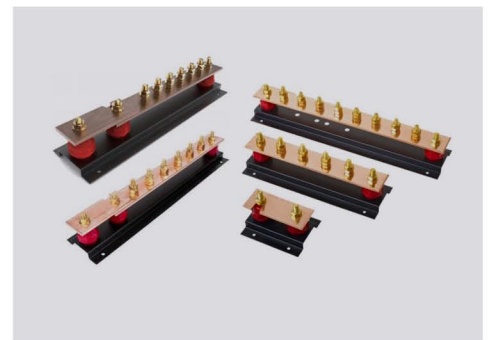

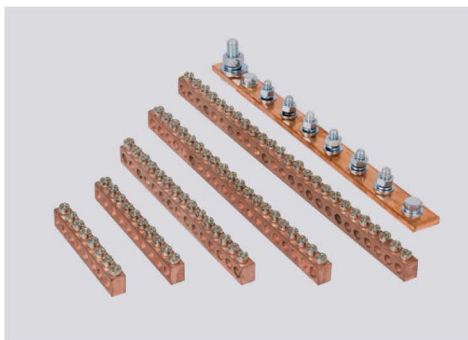

Brass Neutral Links & Earth Bars come with multi sockets and screws to accommodate as many as 14 to 20 neutral wires to minimize space and enhance their performance and management of the Neutral Links & Earth Bars become easier. We manufacture and export Brass Neutral Links & Earth Bars in various sizes and capacities with stunning dimensions with quality assured finishing as per custom specification.

||| Aluminium Neutral & Earth Bars

We provide Aluminium Neutral And Earth Bars that are compatible with both aluminium wiring. These Neutral bars are manufactured making use of optimum grade aluminium with advanced technology in compliance with universally accepted standards. It is available in different cross-sections, wires, screw configuration and capacity along with different finishing and coating to meet the customer's desired requirements.

||| Copper Neutral & Earth Bars

We are manufacturing and supplying an exclusive range of Copper Neutral & Earth Bars in India. These neutral and earth bars are manufactured in accordance with global industry standards at a well-equipped production unit by utilizing excellent quality material. It is demanded in the engineering and electrical industry for wiring and parallel earthing purpose.

||| Brass Turned Components

We are engaged in offering a wide range of Brass Turned Components to our clients at a reasonable cost. Our turned components are made using quality raw material such as high and fine grade brass to assure quality and reliability. We manufacture all types of Brass turned components depending upon client's requirement for application in any industry.

||| Aluminium Turned Components

Aluminium Turned Components are used in the automobile, electrical, electronics, mechanical, telecom and plastic industries. Before the last dispatch, a pool of quality machinery strictly inspects these products against diverse parameters of quality. Owing to their high corrosion resistance and optimum finish, Aluminium Components are widely demanded in the market.

||| Copper Turned Components

Copper Turned Components have multiple variants like Connector Pins, Sockets, Bushes, Sleeves, Terminals, Bus Bars, and many more important parts from different industries. The demand shows its importance to be of top-notch quality and this is exactly what we offer. Our Produced Copper Component's quality is highly appreciated by our overseas as well as domestic customers.

||| Brass And MS Fasteners

We offer a wide range of cold headed and bar turned / machined / stamped Brass & M.S Fasteners as per DIN / ISO / BS / ASTM / JIS / GOST standard for various applications. All our Fasteners and Fixings confirm to International Specifications and have a very high thread quality. 'Go' and 'Not go' thread gauges are maintained throughout production and after plating. We cater to various industries like Medical, Heating, Switches, Control Panels, etc.

||| Brass Moulding Inserts

The wide range of Brass Inserts include threaded moulding inserts, ultrasonic moulding inserts, knurled moulding inserts, moulding inserts for plastic, wood moulding inserts and more. The range of standard and high quality brass moulding inserts are designed to molded into the plastic, wood or any molded components.

||| Brass Plug Pins

We are one of the manufacturers & Supplier and suppliers from Jamnagar - India of all types of Industrial Plug Pins, Electrical Plugs and Sockets, Electric Plug Pins and Sockets. Our range includes brass male and female pins, nickel plated electric pins, socket pins for various electrical use.

||| Brass Switch Socket Pins

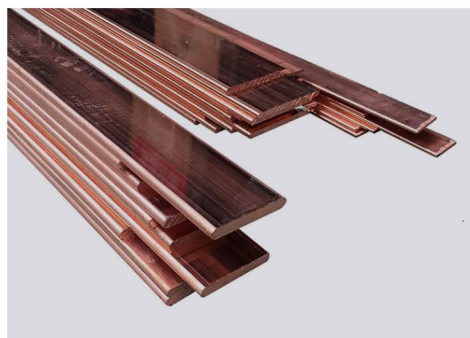

We are manufacturer & Supplier of supreme quality brass switch socket pins. We produce a big variety of brass pins like Brass Socket Pins, Brass Plug Pins, Brass Charger Pins, Brass Auto Electrical Pins, Brass Contact Pins and Brass Neutral Switch Pins which are made from copper zinc alloy as per customer requirements. These brass switch socket pins are used in many industries like Automotive, Electrical & Electronics, Communication & Telecom, etc.

||| Electrical Switch Screws

Electrical and switch box screws are designed to provide a secure fix when installing or repairing sockets in a property. Designed for use with switches and socket boxes, one of the primary applications of electrical screws is fastening faceplates to their back boxes. While electrical sockets screws tend to be a standard width, lengths can vary. At Shreeji Impex, you'll find a wide range of electrical switch screws. Available in multi-packs containing a range of lengths and sizes, we have both brass and zinc-plated screws available.

||| Copper Bus Bar

We are one of the reputed name of the industry, which is engaged in manufacturing and supplying comprehensive range of copper bus bar. Copper Bus Bars are in high demand because of their superior conductivity and characteristics such as free bendability and crack resistance. These bars come in three different hardnesses: hard, half-hard, and soft, and they're perfect for electrical applications.
